

The following table lists the keywords necessary to use Scribe's custom import for the data category 'Samples'. The EDD can contain the codes or keywords in a Matrix column or it can contain the codes in a Task_ID column. The Task_ID column is used by Scribe to determine which sampling section will receive the sample records, regardless of the matrix code.

	Matrix	Task_ID
Air Sampling	'a' or contains 'air'	A01
Water Sampling	'w', 'gw' or contains 'water'	WA01
Soil Gas Sampling	'sg' or contains 'soil gas'	SG01
Biota Sampling	'benthic' or contains 'fish', or contains 'tissue'	B01
Wipe Sampling	contains 'wipe'	WIPE
Soil/Sediment	's', 'waste', 'as' or contains: 'soil', 'sld', 'bulk', 'asbestos', sediment	SO01

Import Data Wizard

Scribe Import Data Wizard

1. Choose the type of data to import from the list below:

Data Category:

Samples

2. Pick the data to import into Scribe:

☒ Import Data File
